CAREER OBJECTIVE

Senior Front-End Developer with 9 years of proven lead and meaningful contributions to teams of varying size scope. With my results-driven mentality, I transformed my team at GitHub by seeking, learning, and teaching new, efficient technologies to make aggressive deadlines consistently achievable. Passionate about going the extra mile to ensure customer is unquestionably satisfied with the product or service provided. With emphasis on scalable and well-documented code, I look forward to working collaboratively as well as spearheading independent projects at Accenture.

WORK EXPERIENCE

Senior Front-End Developer

GitHub

📅 January 2017 - current

📍 New York, NY

- Led development team of 5 persons to create GitHub Actions which allows all new and existing customers to have repositories hosted.
- Implemented AWS to allow easy iteration in comparison to on-premise infrastructure.
- Created new documentation for MaterialUI that pre-empted the need for a 3-week onboarding course.
- Mentored 8 new junior front-end developers on team, expanding JavaScript, React, and Angular skillset.
- Worked with PM/IM to keep on track with the project timeline, and billing. On average, this saved 4 days of communication per project.
- Led bi-weekly stand-up to ensure team worked effectively using coaching strategies to increase efficiency by 10%.
- Worked with Quality Assurance to get new pages/products tested, and addressed any issues within 48 hours.
